# Living Well: Gravesham

## PREMATURE DEATHS

(under 75 years)

### Cause of death

### Inequalities by deprivation

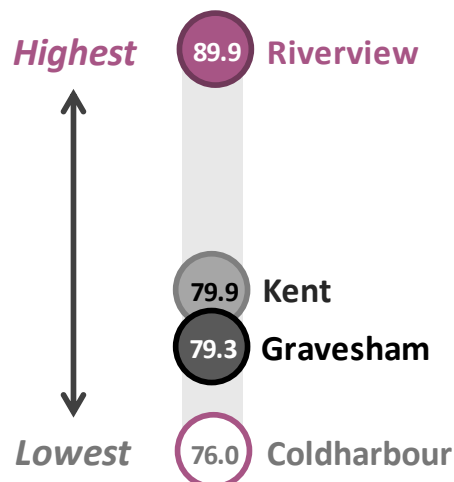

Source: PCMD, 2017, 2013-2017

## LIFE EXPECTANCY

at birth

### Ward-level life expectancy (men)

Source: PCMD, 2013-2017

## LONG TERM CONDITIONS

Kent recorded prevalence

Diabetes

6.8%

Ages 17+

Hypertension

14.7%

All ages

Asthma

5.6%

All ages

COPD

2.1%

All ages

Source: QOF, 2018/19

## MENTAL HEALTH

### Depression

11.2%

Of adults recorded by their GP as having depression

### Emergency hospital admissions for serious mental health conditions

184

in 2018/19

Source: QOF, 2018/19; HES,

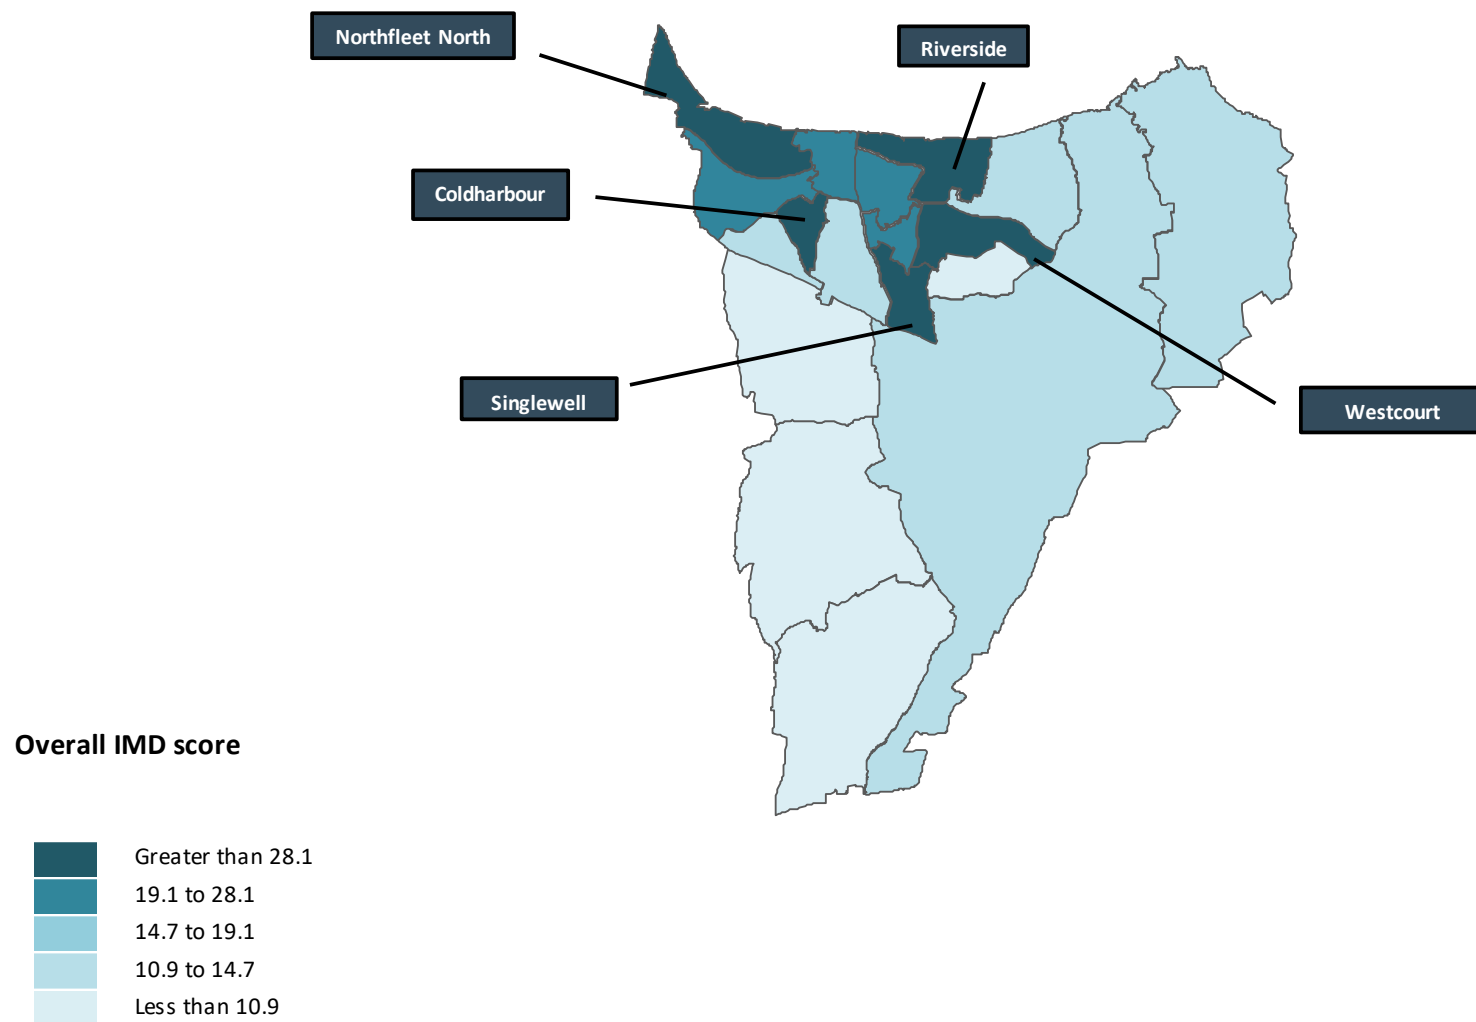

# Demographics

Index of Multiple Deprivation (IMD)

# Index of Multiple Deprivation (IMD): by electoral ward

Overall IMD score, population weighted quintile, 2019

Source: DCLG, prepared by KPHO (MP), Oct-19

# Premature mortality

Premature mortality from all causes

Causes of premature death

# Premature mortality from all causes: by electoral ward

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: A00-Y99), 2015-2017

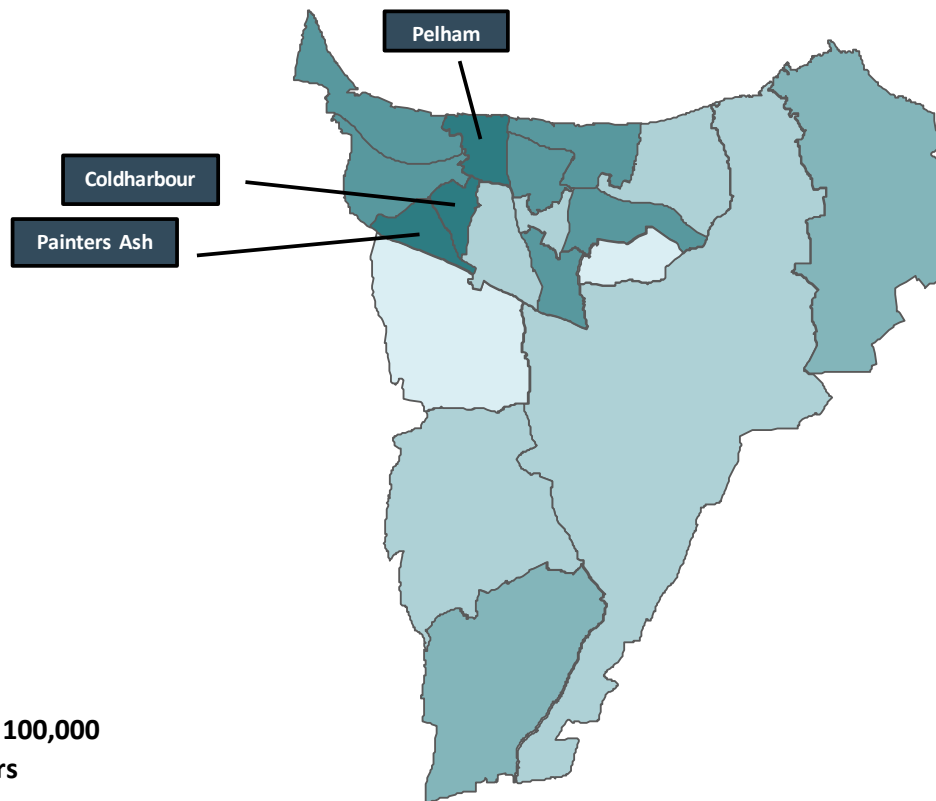

Source: PCMD, prepared by KPHO (RK), Nov-18

# Premature mortality from all causes: by electoral ward

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: A00-Y99), 2015-2017

Age standardised rate per 100,000 people aged under 75 years

Source: PCMD, prepared by KPHO (RK), Nov-18

# Premature mortality from all causes: by district

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: A00-Y99),  
2015-2017

Source: PCMD, prepared by KPHO (RK), Nov-18

# Premature mortality from all causes: trend

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10:A00-Y99), 2010 to 2017

Decreasing with a similar pace of change to Kent

Source: PCMD, prepared by KPHO (RK), Nov-18

# Premature mortality from all causes: by deprivation

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: A00-Y99), 2010 to 2017

Source: PCMD, prepared by KPHO (RK), Nov-18

# Causes of premature mortality

Underlying cause of death for persons aged under 75 years, 2017

Source: PCMD, prepared by KPHO (RK), Jul-18

# Healthcare usage

A&E attendances

Elective hospital admissions

Emergency hospital admissions

# Accident & Emergency attendances: by electoral ward

Age standardised rate per 100,000 resident population, , 2016/17-2018/19

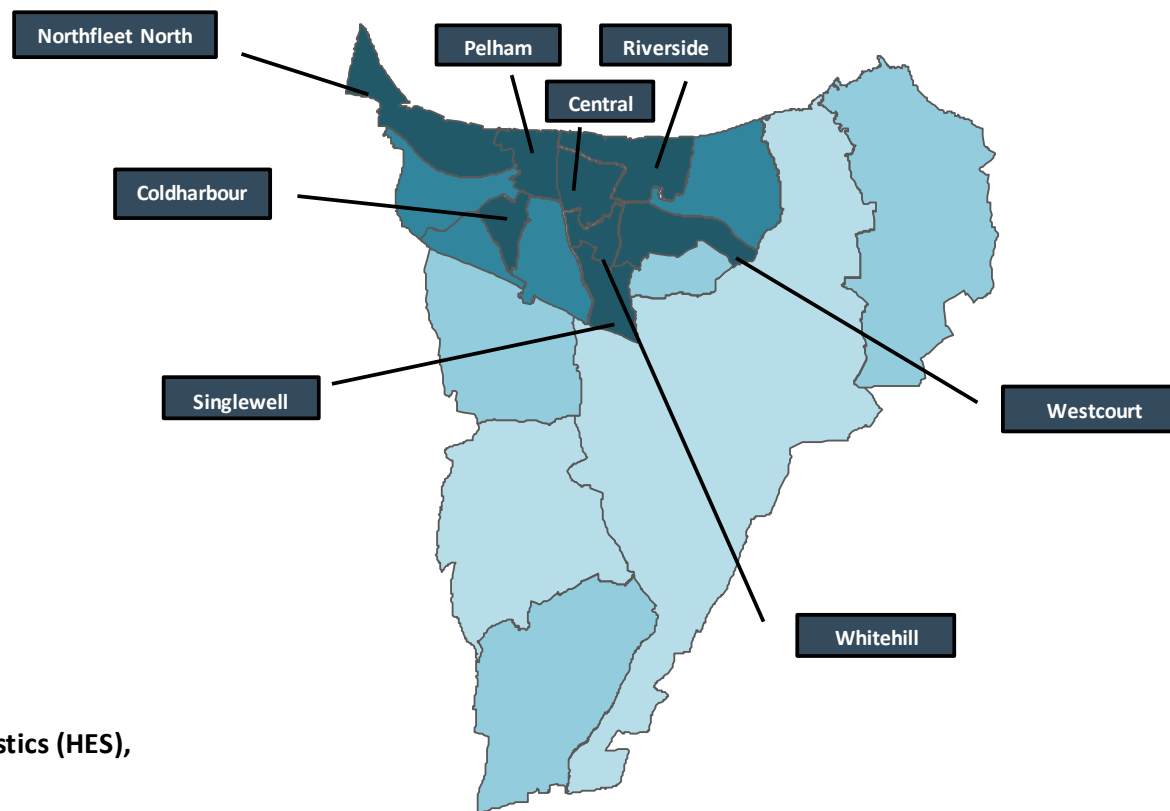

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (SR), Dec-19

# Accident & Emergency attendances: by electoral ward

Age standardised rate per 100,000 resident population, 2016/17-2018/19

Hospital Episode Statistics (HES),  
NHS Digital, ONS

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (SR), Dec-19

# Accident & Emergency attendances: by district

Age standardised rate per 100,000 resident population, , 2016/17-2018/19

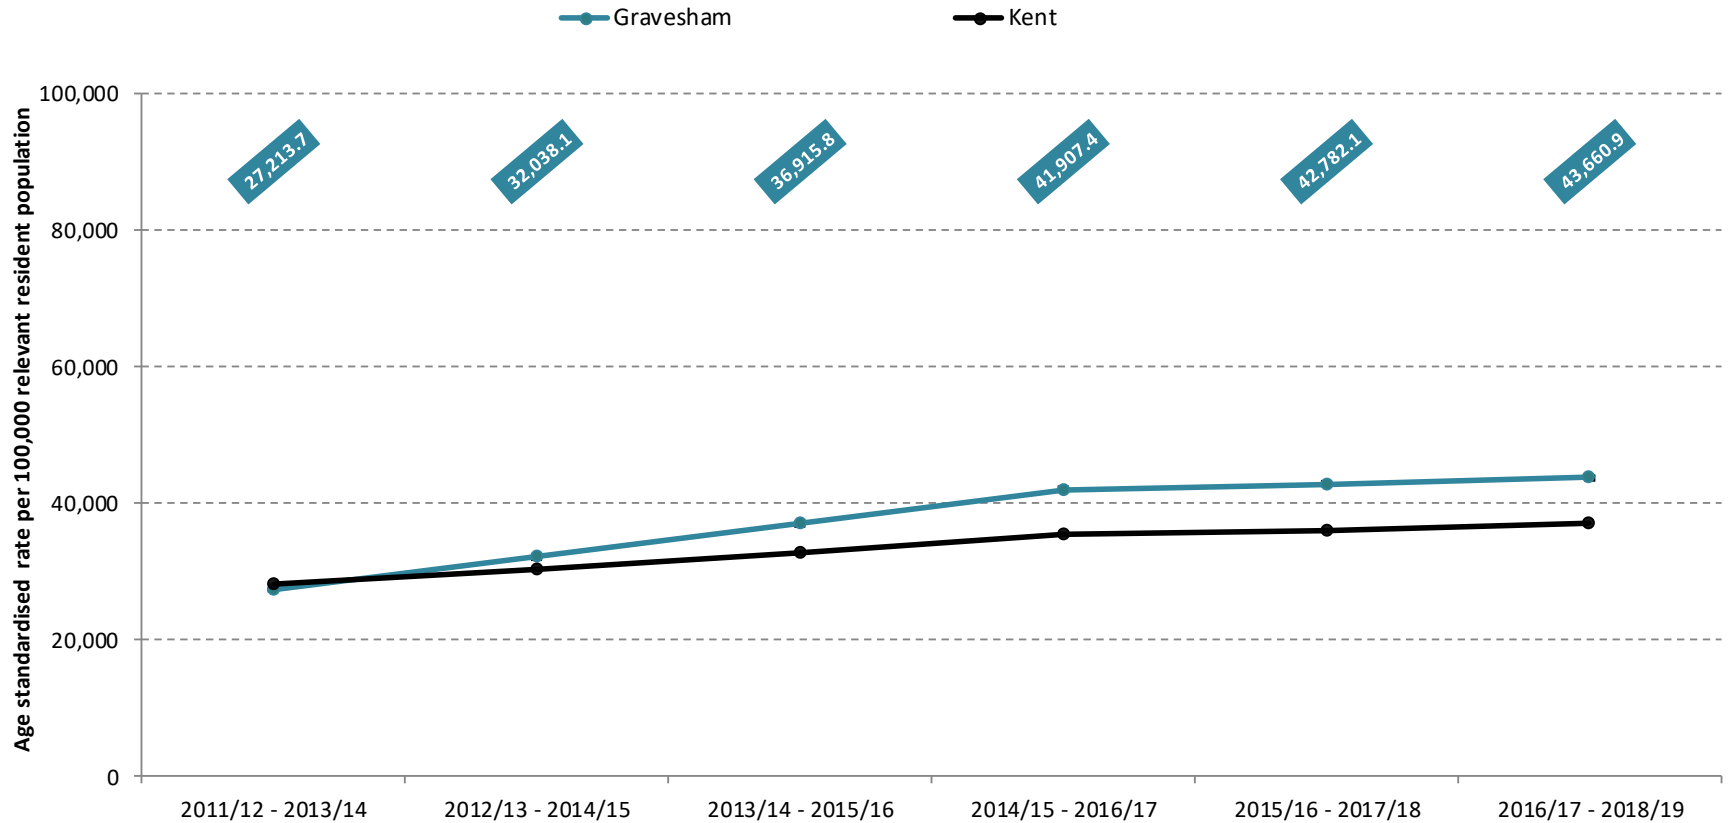

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (SR), Dec-19

# Accident & Emergency attendances: trend

Age standardised rate per 100,000 resident population, 2010/11 - 2012/13 to 2016/17 - 2018/19

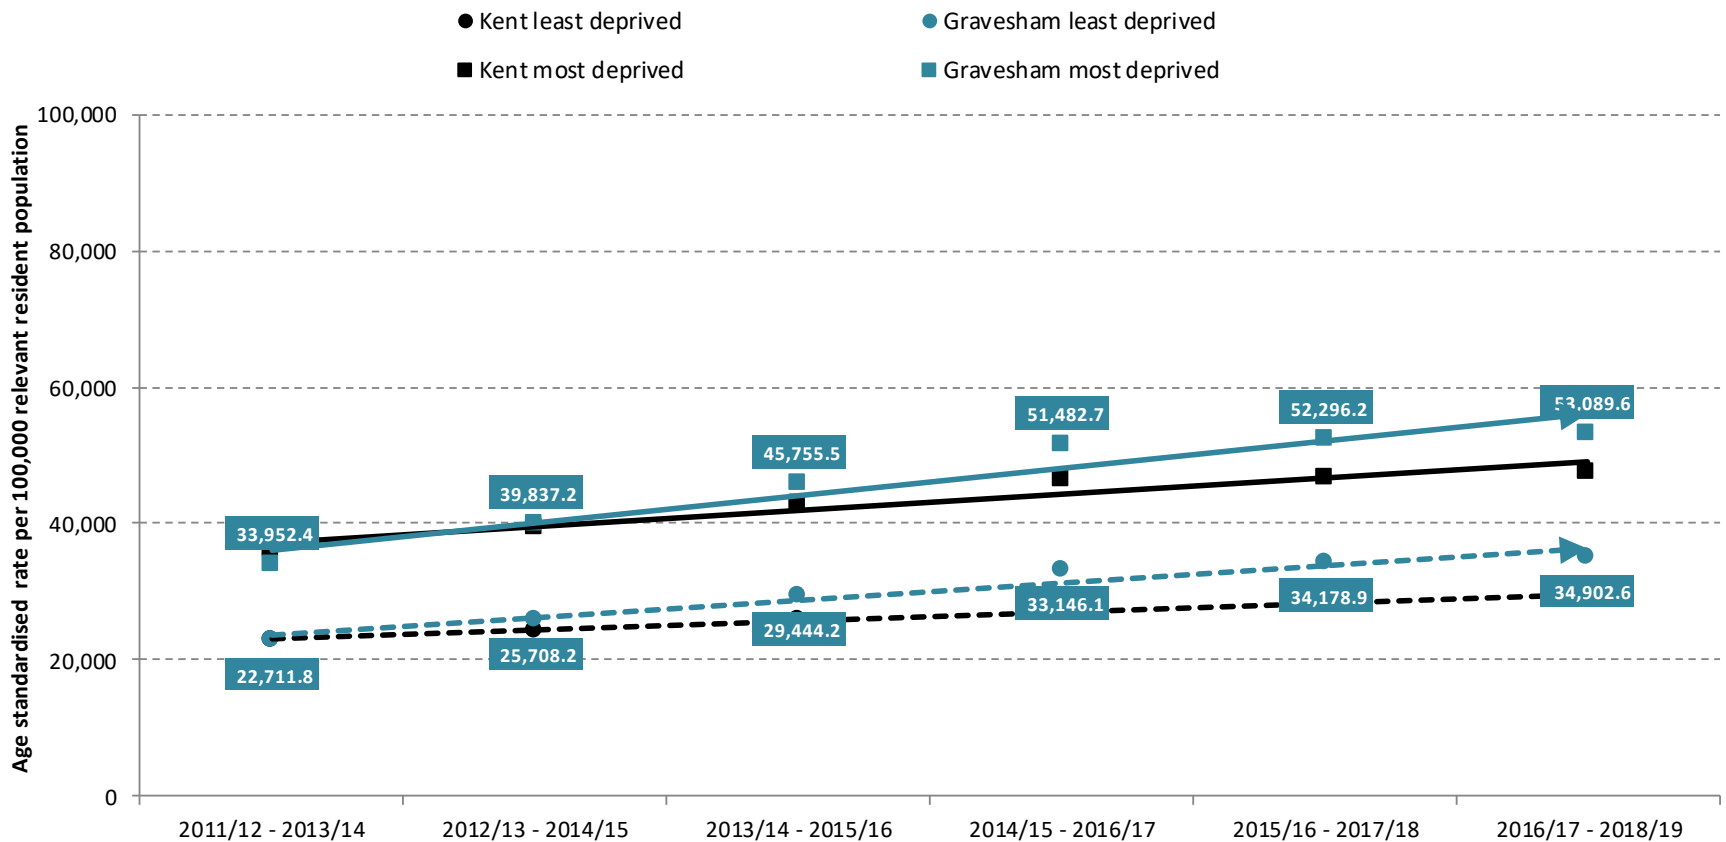

Increasing with a similar pace of change to Kent

Source : Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (SR), Dec-19

# Accident & Emergency attendances: by deprivation

Age standardised rate per 100,000 resident population, 2011/12 - 2013/14 to 2016/17 - 2018/19

Least deprived trend - increasing with a faster pace of change than Kent  
 Most deprived trend - increasing with a similar pace of change to Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (SR), Dec-19

# Elective hospital admissions: by electoral ward

Age standardised rate per 100,000 resident population, 2016/17-2018/19

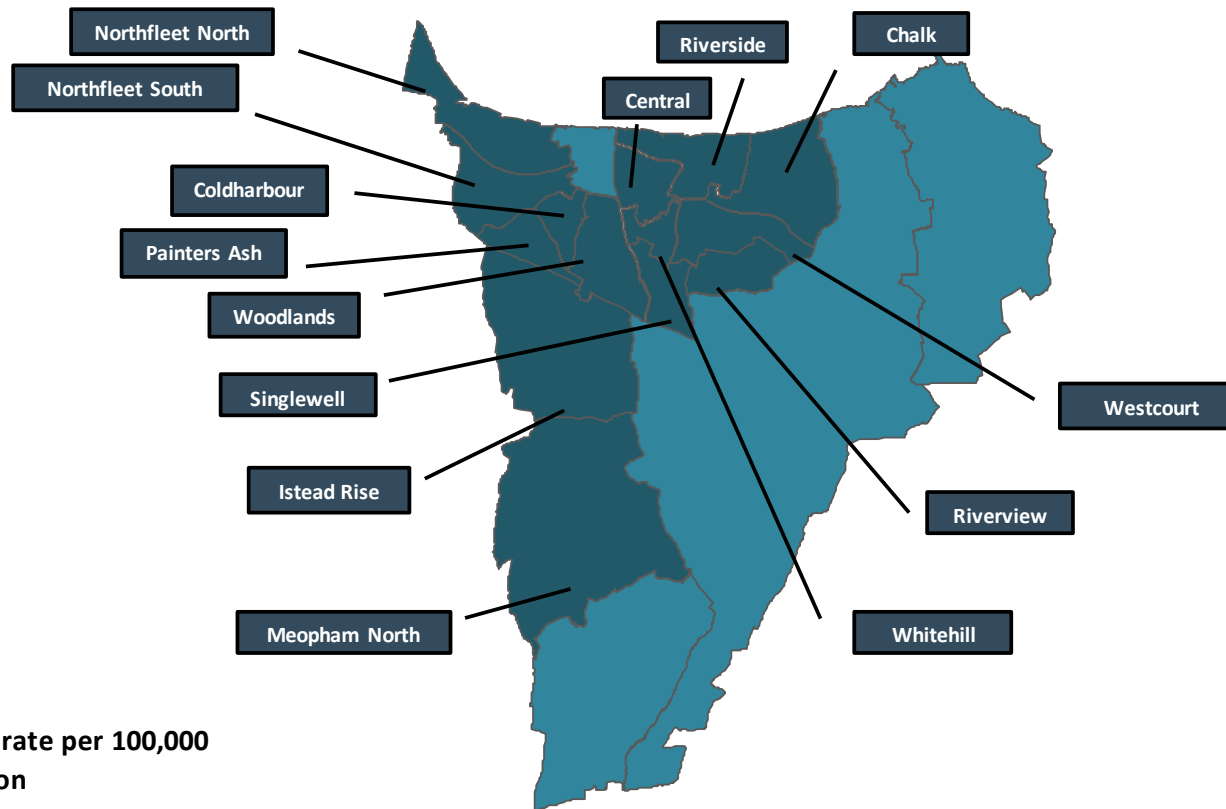

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (MP), Nov-19

# Elective hospital admissions: by electoral ward

Age standardised rate per 100,000 resident population, 2016/17-2018/19

Age standardised rate per 100,000  
resident population

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (MP), Nov-19

# Elective hospital admissions: by district

Age standardised rate per 100,000 resident population, 2016/17-2018/19

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (MP), Nov-19

# Elective hospital admissions: trend

Age standardised rate per 100,000 resident population, 2011/12 - 2013/14 to 2016/17 - 2018/19

Increasing compared with a stable trend for Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (MP), Nov-19

# Elective hospital admissions: by deprivation

Age standardised rate per 100,000 resident population, 2011/12 - 2013/14 to 2016/17 - 2018/19

Least deprived trend - increasing with a similar pace of change to Kent  
 Most deprived trend - increasing compared with a stable trend for Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (MP), Nov-19

# Emergency hospital admissions: by electoral ward

Age standardised rate per 100,000 resident population, 2016/17-2018/19

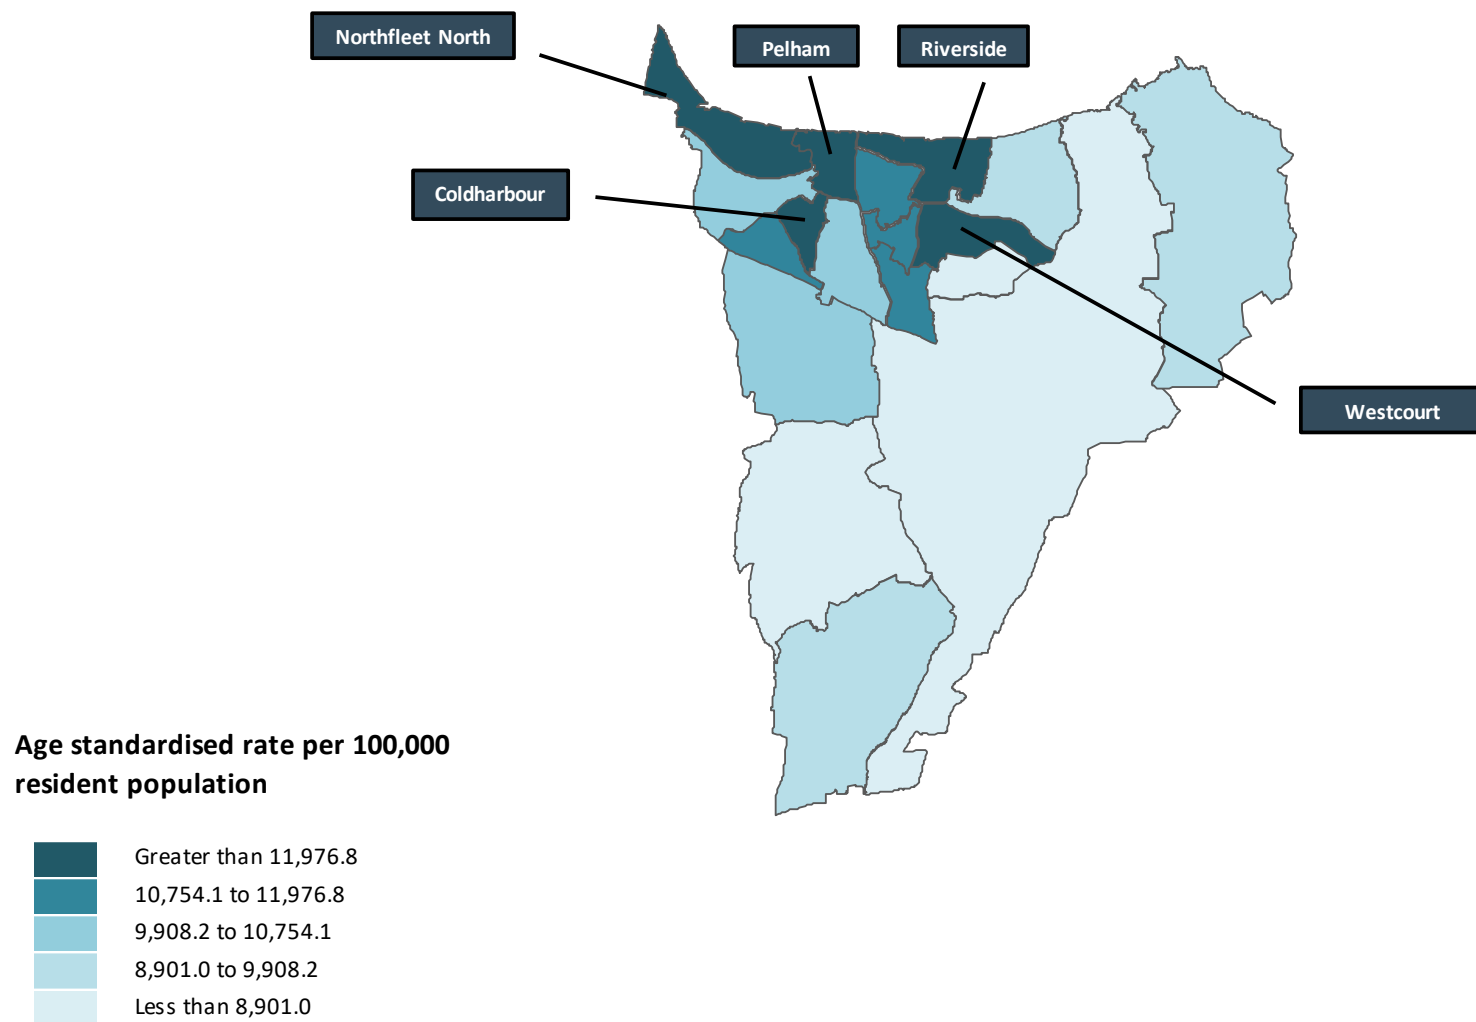

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (JS), Nov-19

# Emergency hospital admissions: by electoral ward

Age standardised rate per 100,000 resident population, 2016/17-2018/19

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (JS), Nov-19

# Emergency hospital admissions: by district

Age standardised rate per 100,000 resident population, 2016/17-2018/19

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (JS), Nov-19

# Emergency hospital admissions: trend

Age standardised rate per 100,000 resident population, 2011/12 - 2013/14 to 2016/17 - 2018/19

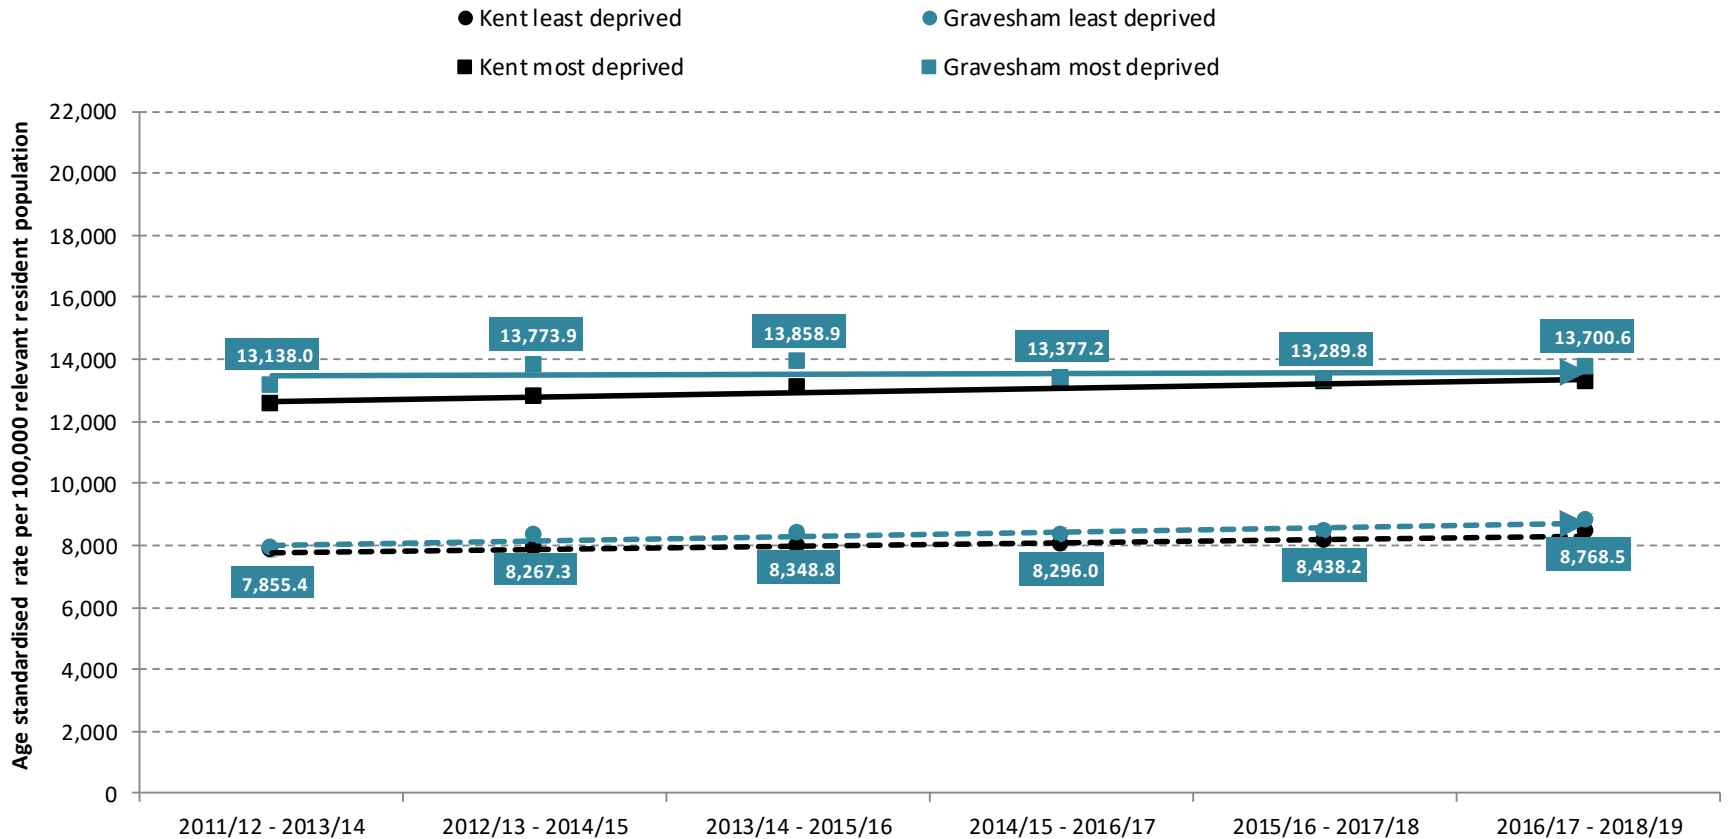

Increasing with a similar pace of change to Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (JS), Nov-19

# Emergency hospital admissions: by deprivation

Age standardised rate per 100,000 resident population, 2011/12 - 2013/14 to 2016/17 - 2018/19

Least deprived trend - increasing with a similar pace of change to Kent

Most deprived trend - no significant change compared with an increasing trend for Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (JS), Nov-19

# Clinical effectiveness

Mortality from causes considered avoidable

Mortality from causes considered amenable

Mortality from causes considered preventable

Avoidable admissions for chronic conditions

Avoidable admissions for acute conditions

# Avoidable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2013-2017

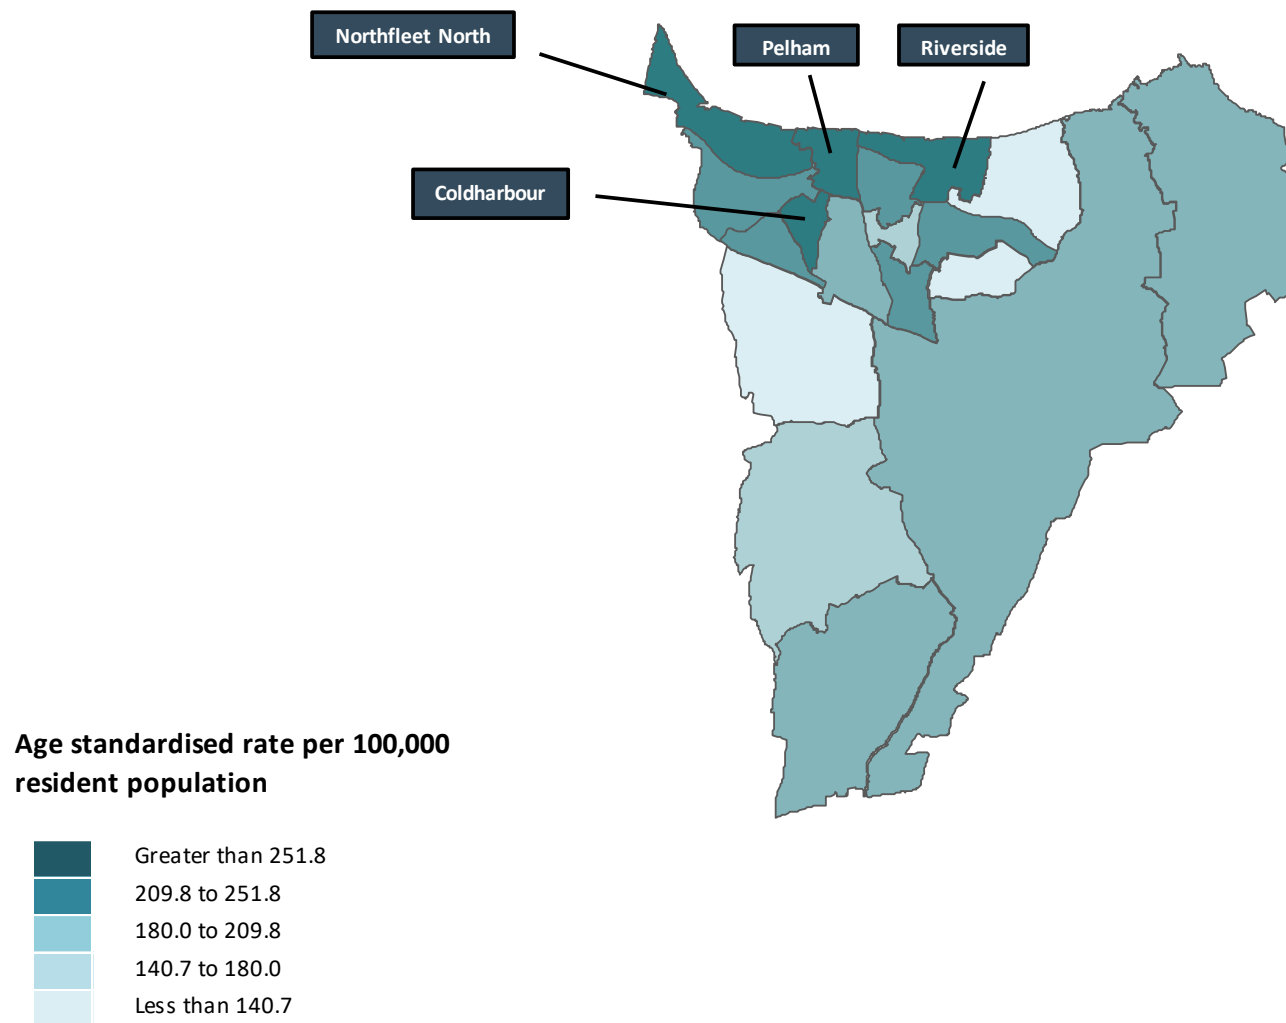

Source: PCMD, prepared by KPHO (RK), Nov-18

# Avoidable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18

# Avoidable mortality: by district

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18

## Avoidable mortality: trend

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

No significant change compared with a stable trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18

# Avoidable mortality: by deprivation

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

Source: PCMD, prepared by KPHO (RK), Nov-18

# Amenable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2013-2017

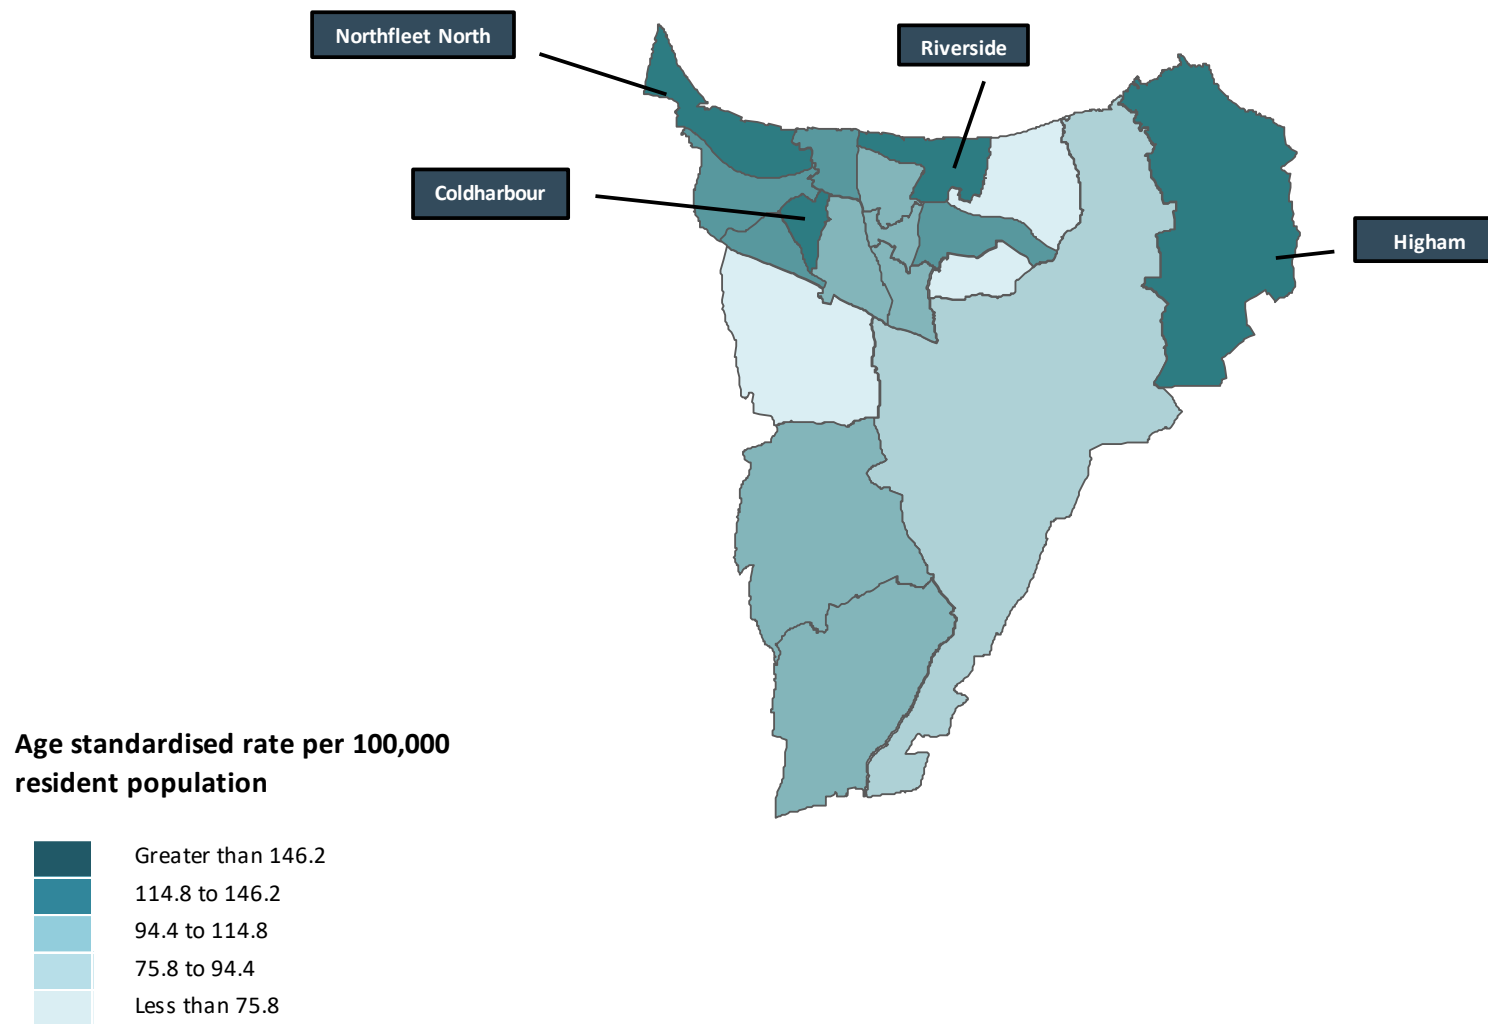

Source: PCMD, prepared by KPHO (RK), Nov-18

# Amenable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18

# Amenable mortality: by district

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18

## Amenable mortality: trend

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

Decreasing with a similar pace of change to Kent

Source: PCMD, prepared by KPHO (RK), Nov-18

# Amenable mortality: by deprivation

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

Least deprived trend - no significant change compared with an stable trend for Kent

Most deprived trend - decreasing with a faster pace of change than Kent

Source: PCMD, prepared by KPHO (RK), Nov-18

# Preventable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for deaths that could be prevented by health intervention identified by using underlying cause and age group, 2013-2017

Ward Gravesham Kent

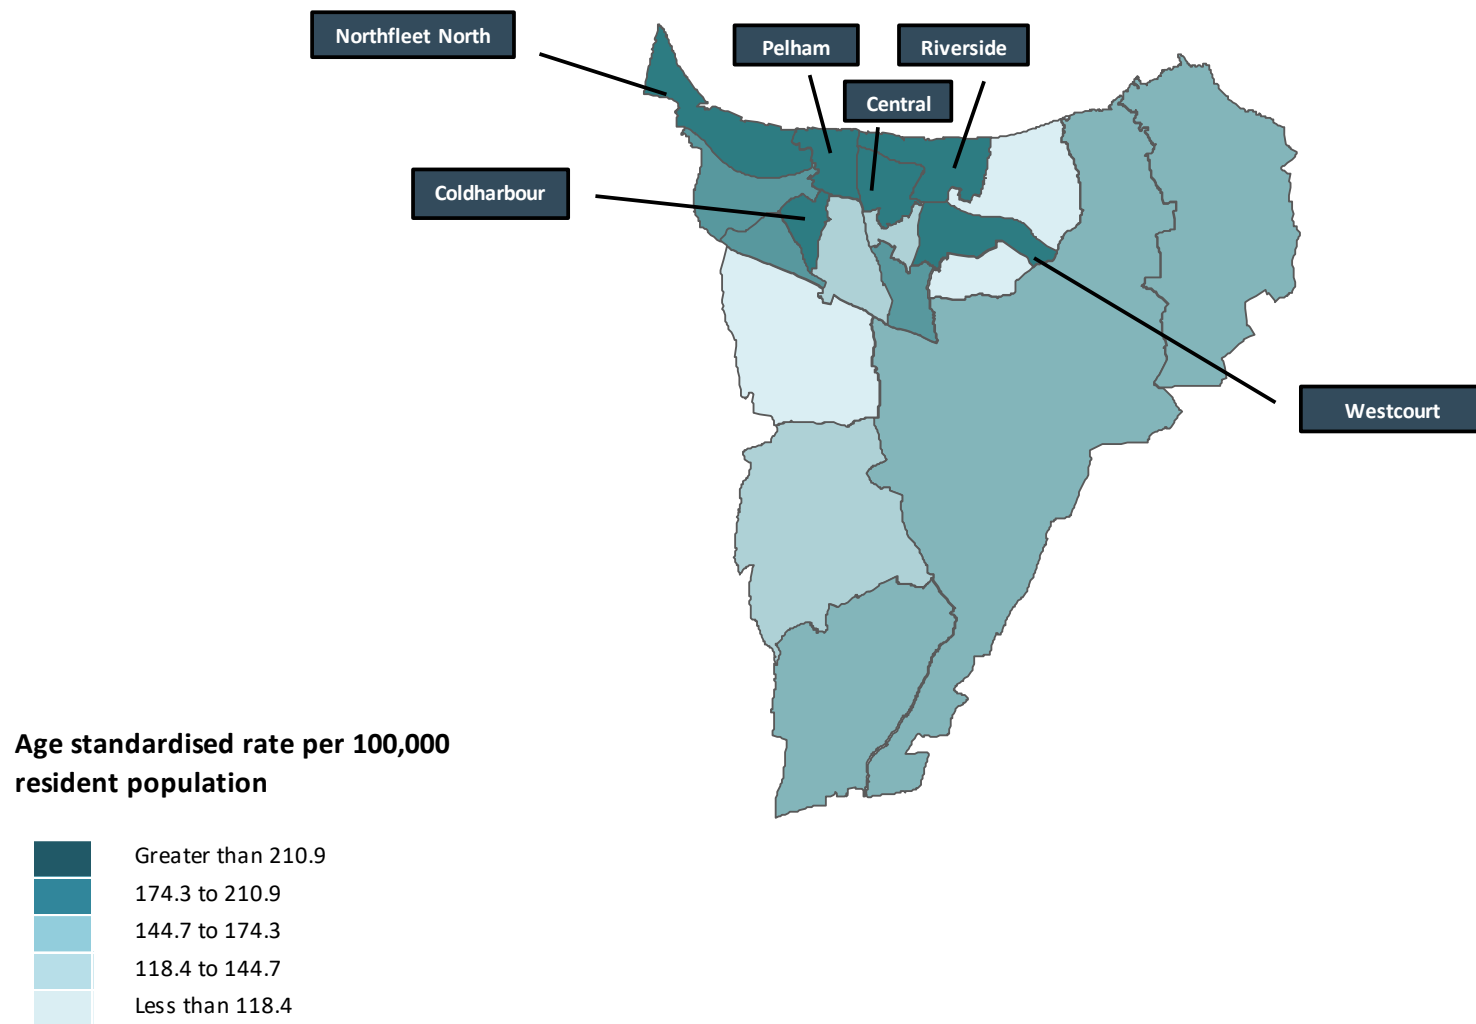

Source: PCMD, prepared by KPHO (RK), Nov-18

# Preventable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for deaths that could be prevented by health intervention identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18

# Preventable mortality: by district

Age standardised rate per 100,000 resident population, for deaths that could be prevented by health intervention identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18

# Preventable mortality: trend

Age standardised rate per 100,000 resident population, for deaths that could be prevented by health intervention identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

No significant change compared with a stable trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18

# Preventable mortality: by deprivation

Age standardised rate per 100,000 resident population, for deaths that could be prevented by health intervention identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

Least deprived trend - no significant change compared with decreasing trend for Kent

Most deprived trend - decreasing compared with stable trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18

# Avoidable emergency hospital admissions for chronic ambulatory care sensitive conditions: by district

Age standardised rate per 100,000 resident population, persons, 2016/17-2018/19

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Jan -20

## Avoidable emergency hospital admissions for chronic ambulatory care sensitive conditions: trend

Age standardised rate per 100,000 resident population, persons, 2011/12 - 2013/14 to 2016/17 - 2018/19

No significant change compared with a stable trend for Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Jan-20

# Avoidable emergency hospital admissions for chronic ambulatory care sensitive conditions: by deprivation

Age standardised rate per 100,000 resident population, persons, 2010/11 - 2014/15 to 2014/15 - 2018/19

Least deprived trend - no significant change with a similar pace of change to Kent  
Most deprived trend - no significant change compared with an stable trend for Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Jan -20

# Avoidable emergency hospital admissions for acute conditions: by electoral ward

Age standardised rate per 100,000 resident population, persons, 2016/17-2018/19

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Jan-20

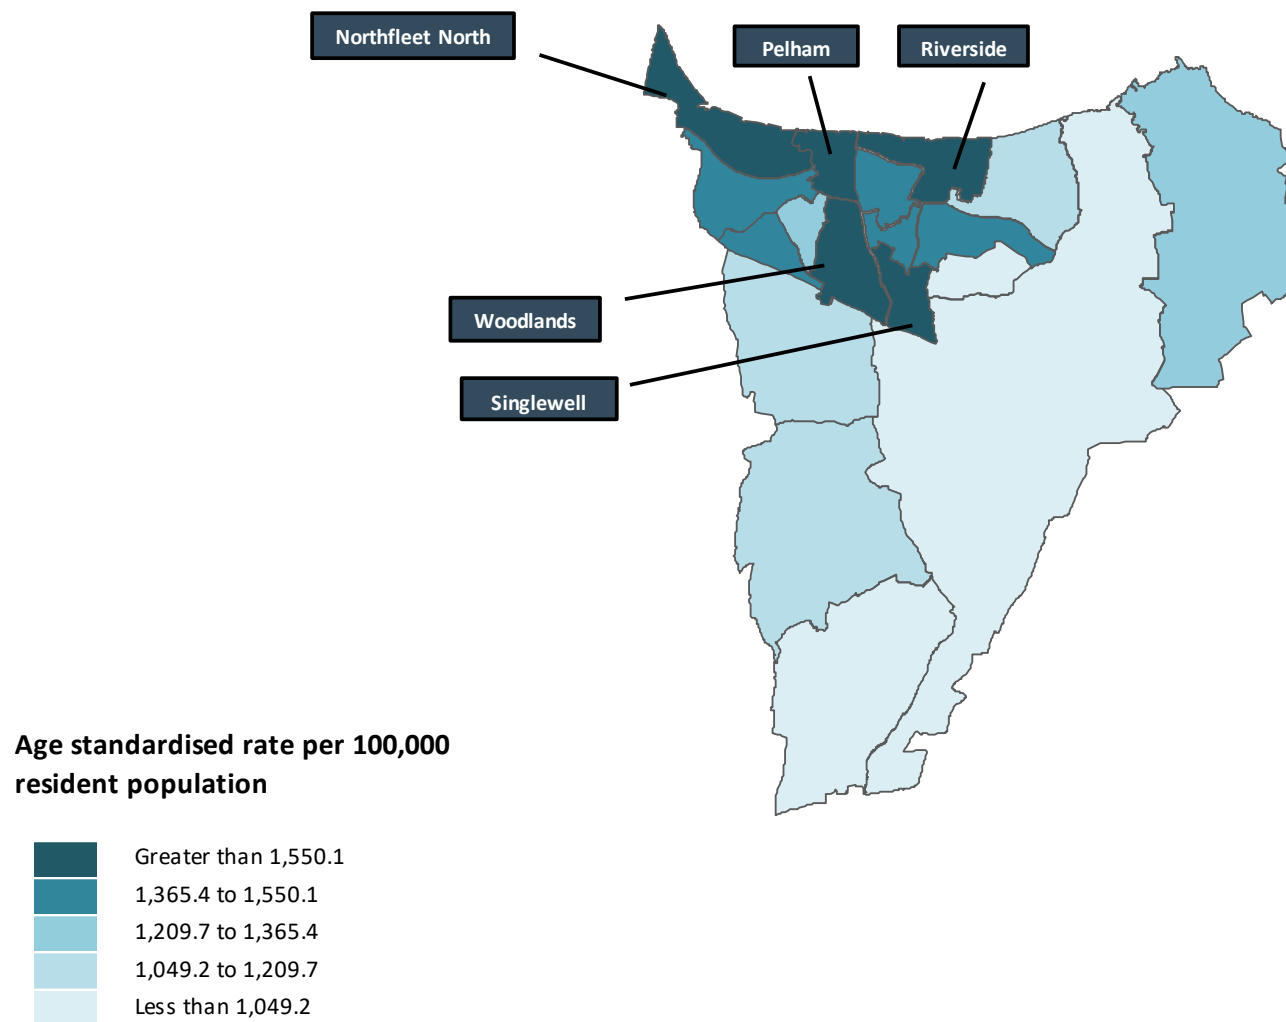

Wards with no data have been subject to suppression rules

# Avoidable emergency hospital admissions for acute conditions: by electoral ward

Age standardised rate per 100,000 resident population, persons, 2016/17-2018/19

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Jan-20

# Avoidable emergency hospital admissions for acute conditions: by district

Age standardised rate per 100,000 resident population, persons, 2016/17-2018/19

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Jan -20

# Avoidable emergency hospital admissions for acute conditions: trend

Age standardised rate per 100,000 resident population, persons, 2011/12 - 2013/14 to 2016/17 - 2018/19

Increasing with a similar pace of change to Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Jan-20

# Avoidable emergency hospital admissions for acute conditions: by deprivation

Age standardised rate per 100,000 resident population, persons, 2011/12 - 2013/14 to 2016/17 - 2018/19

Least deprived trend - increasing compared with an increasing trend for Kent

Most deprived trend - increasing with a similar pace of change to Kent

# Lifestyle

Excess weight

Physical activity

Smoking

Fruit and vegetable consumption

# Adults classified as overweight or obese: by district

Percentage of adults (aged 18+) classified as overweight or obese, 2017/18

Source: Public Health England (based on Active Lives survey, Sport England), prepared by KPHO (LLY), May-19

# Physical inactivity in adults: by district

Percentage of adults (aged 19+) that are physically inactive (<30 moderate intensity equivalent minutes per week), 2017/18

Source: Public Health England (based on Active Lives, Sport England), prepared by KPHO (SR), Jun -19

# Smoking prevalence in adults: by district

Percentage of adults (aged 18+) who are self-reported smokers, 2018

Source: Annual Population Survey (APS), prepared by KPHO (MP), Nov-19

# Smoking prevalence in adults: trend

Percentage of adults (aged 18+) who are self-reported smokers, 2011 to 2018

Decreasing with a similar pace of change to Kent

Source: Annual Population Survey (APS), prepared by KPHO (MP), Nov-19

# Fruit and vegetable consumption in adults: by district

Percentage of adults (aged 16+) meeting the recommended '5-a-day' on a 'usual day', 2017/18

Source: Public Health England (based on Active Lives, Sport England), prepared by KPHO (SR), Jun -19

# Multimorbidity

Multimorbidity prevalence

Prevalence of long term condition combinations

# Multimorbidity (developmental statistics): by CCG

Patients (aged 25 years and over) recorded by their GP as having 2 or more long-term conditions, analysis is restricted to GP practices flowing data into the KID at time of the analysis, 2019

Source: Kent Integrated Dataset (KID), prepared by KPHO (LLY), Aug-19

## Multimorbidity (developmental statistics): Prevalence of long term condition combinations

Patients recorded by their GP as having specific combinations of long term conditions, Kent, March 2018

Source: Kent Integrated Dataset (KID), prepared by KPHO (TG), March 2018

\* Figures relate to persons resident in Kent and registered at a GP participating in the KID in March 2018
