Living Well: Thanet

PREMATURE DEATHS (under 75 years)

Cause of death

- Cancer: 40%
- Circulatory: 21%
- Respiratory: 12%
- Other: 28%
- Other: 9%

LIFE EXPECTANCY at birth

- Male: 77.7 years
- Female: 82.4 years

LONG TERM CONDITIONS

- Diabetes: 7.4% (Ages 17+)
- Hypertension: 16.4% (All ages)
- Asthma: 5.9% (All ages)
- COPD: 3.0% (All ages)

MENTAL HEALTH

- Depression: 12.6% of adults recorded by their GP as having depression

Inequalities by deprivation

- Premature mortality rates (ASR)
  - Most deprived: 702.1 per 100,000
  - Least deprived: 247.9 per 100,000

Ward-level life expectancy (men)

- Highest: 87.5
- Lowest: 71.2

Premature mortality from cardiovascular disease: by electoral ward

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: I00-I99), 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Premature mortality from cardiovascular disease: by electoral ward

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: I00-I99), 2013-2017

Source: PCMD, prepared by KPHO (MP), Nov-18
Premature mortality from cardiovascular disease: by district

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: I00-I99), 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Premature mortality from cardiovascular disease: trend

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: I00-I99), 2010 to 2017

Source: PCMD, prepared by KPHO (RK), Nov-18

Decreasing with a similar pace of change to Kent
Premature mortality from cardiovascular disease: by deprivation
Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: I00-199), 2010 - 2014 to 2013 - 2017

Least deprived trend - stable
Most deprived trend - decreasing

Source: PCMD, prepared by KPHO (RK), Nov-18
Emergency hospital admissions for cardiovascular disease: by electoral ward

Age standardised rate per 100,000 resident population, ICD-10: I00-I99 in primary, 2015/16-2017/18

Source: <Smallprint>, prepared by KPHO (ZC), Nov-18

Living Well in Thanet
Emergency hospital admissions for cardiovascular disease: by district

Age standardised rate per 100,000 resident population, ICD-10: I00-I99 in primary, 2015/16-2017/18

Source: <Smallprint>, prepared by KPHO (ZC), Nov-18
Emergency hospital admissions for cardiovascular disease: trend

Age standardised rate per 100,000 resident population, ICD-10: I00-I99 in primary, 2010/11 to 2017/18

No significant change compared with a decreasing trend for Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Nov-18
Emergency hospital admissions for cardiovascular disease: by deprivation
Age standardised rate per 100,000 resident population, ICD-10: I00-I99 in primary, 2010/11 - 2012/13 to 2015/16 - 2017/18

Least deprived trend - decreasing compared with a increasing trend for England
Most deprived trend - decreasing compared with a increasing trend for England

Recorded asthma prevalence: trend
Percentage of patients recorded on GP QOF registers as having Asthma, modelled ward-level estimates, 2013/14-2017/18

No significant change compared with a stable trend for Kent

Source: QOF, prepared by KPHO (MP), Nov-18
Recorded asthma prevalence: by deprivation
Percentage of patients recorded on GP QOF registers as having Asthma, modelled ward-level estimates, 2013/14-2017/18

Least deprived trend - stable with a similar pace of change to England
Most deprived trend - stable with a similar pace of change to England

Recorded prevalence of serious mental health conditions: by electoral ward

The percentage of patients recorded on GP QOF registers as having schizophrenia, bipolar affective disorder, other psychoses or on lithium therapy, modelled ward-level estimates, 2015/16-2017/18

Source: QOF, prepared by KPHO (MP), Nov-18
Recorded prevalence of serious mental health conditions: by electoral ward

The percentage of patients recorded on GP QOF registers as having schizophrenia, bipolar affective disorder, other psychoses or on lithium therapy, modelled ward-level estimates, 2015/16-2017/18

Percentage

- Greater than 1.0
- 0.8 to 1.0
- 0.7 to 0.8
- 0.7 to 0.7
- Less than 0.7

Source: QOF, prepared by KPHO (MP), Nov-18
Recorded prevalence of serious mental health conditions: by district

The percentage of patients recorded on GP QOF registers as having schizophrenia, bipolar affective disorder, other psychoses or on lithium therapy, modelled ward-level estimates, 2015/16-2017/18

Source: QOF, prepared by KPHO (MP), Nov-18
Recorded prevalence of serious mental health conditions: trend

The percentage of patients recorded on GP QOF registers as having schizophrenia, bipolar affective disorder, other psychoses or on lithium therapy, modelled ward-level estimates, 2013/14-2017/18

Increasing with a faster pace of change than Kent

Source: QOF, prepared by KPHO (MP), Nov-18
Recorded prevalence of serious mental health conditions: by deprivation

The percentage of patients recorded on GP QOF registers as having schizophrenia, bipolar affective disorder, other psychoses or on lithium therapy, modelled ward-level estimates, 2013/14-2017/18

- England least deprived
- Kent least deprived
- England most deprived
- Kent most deprived

Source: QOF, prepared by KPHO (MP), Nov-18

Least deprived trend - increasing with a similar pace of change to England
Most deprived trend - increasing with a similar pace of change to England
Hospital admissions for mental health conditions: by electoral ward

Age standardised rate per 100,000 resident population, ICD 10: F (primary diagnosis), 2013/14-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Nov-18
Hospital admissions for mental health conditions: by electoral ward
Age standardised rate per 100,000 resident population, ICD 10: F (primary diagnosis) , 2013/14-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Nov-18
Hospital admissions for mental health conditions: by district

Age standardised rate per 100,000 resident population, ICD 10: F (primary diagnosis), 2013/14-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Nov-18
Hospital admissions for mental health conditions: trend
Age standardised rate per 100,000 resident population, ICD 10: F (primary diagnosis), 2010/11 - 2012/13 to 2015/16 - 2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Nov-18
Hospital admissions for mental health conditions: by deprivation
Age standardised rate per 100,000 resident population, ICD 10: F (primary diagnosis), 2010/11 - 2014/15 to 2013/14 - 2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (ZC), Nov-18
Recorded prevalence of learning disabilities: by electoral ward

Percentage of patients recorded on GP QOF registers as having a learning disability, modelled ward-level estimates, 2015/16-2017/18

Source: QOF, prepared by KPHO (MP), Nov-18
Recorded prevalence of learning disabilities: by electoral ward
Percentage of patients recorded on GP QOF registers as having a learning disability, modelled ward-level estimates, 2015/16-2017/18

Source: QOF, prepared by KPHO (MP), Nov-18
Recorded prevalence of learning disabilities: by district

Percentage of patients recorded on GP QOF registers as having a learning disability, modelled ward-level estimates, 2015/16-2017/18

Source: QOF, prepared by KPHO (MP), Nov-18
Recorded prevalence of learning disabilities: trend

Percentage of patients recorded on GP QOF registers as having a learning disability, modelled ward-level estimates, 2013/14-2017/18

No significant change compared with a stable trend for Kent

Source: QOF, prepared by KPHO (MP), Nov-18
Recorded prevalence of learning disabilities: by deprivation
Percentage of patients recorded on GP QOF registers as having a learning disability, modelled ward-level estimates, 2013/14-2017/18

Least deprived trend - increasing compared with a stable trend for England
Most deprived trend - increasing compared with a stable trend for England

Source: QOF, prepared by KPHO (MP), Nov-18
Suicide rate: by district

Age standardised rate per 100,000 people aged 10+, classified by underlying cause of death (ICD-10: X60-X84 (ages 10+ only), Y10-Y34 (ages 15+ only)), 2015-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Suicide rate: trend

Age standardised rate per 100,000 people aged 10+, classified by underlying cause of death (ICD-10: X60-X84 (ages 10+ only), Y10-Y34 (ages 15+ only)), 2010 - 2012 to 2015 - 2017

Increasing compared with a stable trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18
Suicide rate: by deprivation

Age standardised rate per 100,000 people aged 10+, classified by underlying cause of death (ICD-10: X60-X84 (ages 10+ only), Y10-Y34 (ages 15+ only)), 2010 - 2014 to 2013 - 2017

Least deprived trend - stable
Most deprived trend - stable

Source: PCMD, prepared by KPHO (RK), Nov-18
Emergency hospital admissions for self-harm: by electoral ward

Age standardised rate per 100,000 resident population, ICD 10: X60-X84 (main recorded cause), 2013/14-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Emergency hospital admissions for self-harm: by electoral ward
Age standardised rate per 100,000 resident population, ICD 10: X60-X84 (main recorded cause), 2013/14-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Emergency hospital admissions for self-harm: by district
