**Living Well: Dartford**

**PREMATURE DEATHS** (under 75 years)

Cancer: 47%
Respiratory: 9%
Circulatory: 19%
Other: 26%

**LIFE EXPECTANCY** at birth

Female: 82.3 years
Male: 79.2 years

**LONG TERM CONDITIONS** recorded prevalence

- **Diabetes**: 6.7% (Ages 17+)
- **Hypertension**: 13.7%
- **Asthma**: 4.7%
- **COPD**: 1.7%

**MENTAL HEALTH**

- **Depression**: 7.9%
  - Of adults recorded by their GP as having depression

**Emergency hospital admissions for serious mental health conditions**

- **166** in 2017/18

**INEQUALITIES BY DEPRIVATION**

- **Premature mortality rates (ASR)**
  - Most deprived: 547.5 per 100,000
  - Least deprived: 243.5 per 100,000

**Ward-level life expectancy (men)**

- **Highest**: Joydens Wood: 85.3 years
- **Lowest**: Bean & Darenth: 75.9 years

Demographics

Index of Multiple Deprivation (IMD)
Index of Multiple Deprivation (IMD): by electoral ward

Overall IMD score, population weighted quintile, 2015

Source: DCLG, prepared by KPHO (RK), Oct-17

Overall IMD score

- Greater than 27.4
- 18.3 to 27.4
- 13.3 to 18.3
- 9.6 to 13.3
- Less than 9.6

Source: DCLG, prepared by KPHO (RK), Oct-17
## Premature mortality

- **Premature mortality from all causes**

- **Causes of premature death**
Premature mortality from all causes: by electoral ward

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: A00-Y99), 2015-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Premature mortality from all causes: by electoral ward

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: A00-Y99), 2015-2017

Source: PCMD, prepared by KPHO (RK), Nov-18

Age standardised rate per 100,000 people aged under 75 years

Greater than 391.6
324.9 to 391.6
286.9 to 324.6
225.8 to 286.9
Less than 225.8

Source: PCMD, prepared by KPHO (RK), Nov-18
Premature mortality from all causes: by district

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: A00-Y99), 2015-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Premature mortality from all causes: trend

Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10:A00-Y99), 2010 to 2017

No significant change compared with a decreasing trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18
Premature mortality from all causes: by deprivation
Age standardised rate per 100,000 people aged under 75 years, classified by underlying cause of death (ICD-10: A00–Y99), 2010 to 2017

Kent least deprived
Dartford least deprived
Kent most deprived
Dartford most deprived

Least deprived trend - no significant change compared with stable trend for Kent
Most deprived trend - no significant change compared with stable trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18
Causes of premature mortality

Underlying cause of death for persons aged under 75 years, 2017

- **Cancer**: 47%
- **Respiratory**: 9%
- **Circulatory**: 19%
- **Other**: 26%

**Source**: PCMD, prepared by KPHO (RK), Jul-18
# Healthcare usage

Accident & Emergency attendances: by electoral ward

Age standardised rate per 100,000 resident population, 2015/16-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Accident & Emergency attendances: by district

Age standardised rate per 100,000 resident population, 2015/16-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Accident & Emergency attendances: trend
Age standardised rate per 100,000 resident population, 2010/11 - 2012/13 to 2015/16 - 2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18

Increasing with a slower pace of change than England
Accident & Emergency attendances: by deprivation

Age standardised rate per 100,000 resident population, 2011/12 - 2013/14 to 2015/16 - 2017/18

Least deprived trend - increasing with a slower pace of change than Kent

Most deprived trend - increasing with a slower pace of change than Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Elective hospital admissions: by electoral ward
Age standardised rate per 100,000 resident population, 2015/16-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Elective hospital admissions: by electoral ward
Age standardised rate per 100,000 resident population, 2015/16-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Elective hospital admissions: by district
Age standardised rate per 100,000 resident population, 2015/16-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Elective hospital admissions: trend
Age standardised rate per 100,000 resident population, 2010/11 - 2012/13 to 2015/16 - 2017/18

Increasing with a faster pace of change than Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Elective hospital admissions: by deprivation
Age standardised rate per 100,000 resident population, 2010/11 - 2012/13 to 2015/16 - 2017/18

Least deprived trend - increasing with a faster pace of change than Kent
Most deprived trend - increasing with a faster pace of change than Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Emergency hospital admissions: by electoral ward

Age standardised rate per 100,000 resident population, 2015/16-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Emergency hospital admissions: by electoral ward
Age standardised rate per 100,000 resident population, 2015/16-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Emergency hospital admissions: by district
Age standardised rate per 100,000 resident population, 2015/16-2017/18

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Emergency hospital admissions: trend

Age standardised rate per 100,000 resident population, 2010/11 - 2012/13 to 2015/16 - 2017/18

- No significant change compared with an increasing trend for Kent

Source: Hospital Episode Statistics (HES), NHS Digital, ONS, prepared by KPHO (RK), Nov-18
Emergency hospital admissions: by deprivation

Age standardised rate per 100,000 resident population

- Kent least deprived
- Dartford least deprived
- Kent most deprived
- Dartford most deprived

Least deprived trend - increasing with a faster pace of change than Kent
Most deprived trend - no significant change compared with an increasing trend for Kent

Clinical effectiveness

- Mortality from causes considered avoidable
- Mortality from causes considered amenable
- Mortality from causes considered preventable
- Avoidable admissions for chronic conditions
- Avoidable admissions for acute conditions
Avoidable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Avoidable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Avoidable mortality: by district

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Avoidable mortality: trend

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

No significant change compared with a stable trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18
Avoidable mortality: by deprivation

Age standardised rate per 100,000 resident population, for potentially avoidable deaths identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

- Kent least deprived
- Dartford least deprived
- Kent most deprived
- Dartford most deprived

Least deprived trend - no significant change compared with a stable trend for Kent
Most deprived trend - no significant change compared with a stable trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18
Amenable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Amenable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18

Age standardised rate per 100,000 resident population

- Greater than 146.2
- 114.8 to 146.2
- 94.4 to 114.8
- 75.8 to 94.4
- Less than 75.8
Amenable mortality: by district

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Amenable mortality: trend

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

No significant change compared with a decreasing trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18
Amenable mortality: by deprivation

Age standardised rate per 100,000 resident population, for deaths amenable to healthcare identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017

Kent least deprived
Dartford least deprived
Kent most deprived
Dartford most deprived

Least deprived trend - no significant change compared with a stable trend for Kent
Most deprived trend - no significant change compared with a decreasing trend for Kent

Source: PCMD, prepared by KPHO (RK), Nov-18
Preventable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for deaths that could be prevented by health intervention identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Preventable mortality: by electoral ward

Age standardised rate per 100,000 resident population, for deaths that could be prevented by health intervention identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Preventable mortality: by district

Age standardised rate per 100,000 relevant resident population, for deaths that could be prevented by health intervention identified by using underlying cause and age group, 2013-2017

Source: PCMD, prepared by KPHO (RK), Nov-18
Preventable mortality: trend

Age standardised rate per 100,000 resident population, for deaths that could be prevented by health intervention identified by using underlying cause and age group, 2010 - 2012 to 2015 - 2017
